California Business College
"A Thorough School"

A STORY IN GROWTH

1898—One student, one small room, one teacher.

1904—18,000 square feet of floor surface (145 x 125).
This gives us the largest quarters of any college west of Chicago and larger than any other two business colleges in San Francisco.
¼ mile of glass partitions.
This scheme of glass partitions throughout our magnificent floor space, skylights, and a continuous stretch of windows around the four sides of the building, combined with a uniform light color to the woodwork, gives us one of the best lighted colleges in America. The effect to the eye is beautiful and impressive.

450 students.
16 teachers.
10 departments.
2 graduating classes a year.
9 enlargements of quarters in five years.
50 typewriters in use.
2500 students enrolled in five years.
488 positions in past year.
250 positions filled in past year.
238 positions unfilled in past year. (Reason—Demand far greater than our supply.)
$214,788—Total annual salaries of positions in past year.
$104,732—Lost in unfilled positions past year.

These Figures tell their own eloquent story of struggle and success.
What lies behind them? Study our institution and you will find it.
There has been no capital behind this college but brains, energy and conscience:
Brains to seize upon all that is new and good in practical education; to create, to infuse;
Energy to push, to enthuse, to arouse;
Conscience to do absolutely thorough and honest work, to render more than value received, to teach something more than mere book knowledge.
Men grown old and gray in business college work in this city have watched with amazement and alarm the result of these forces working at white heat in the upbuilding of CALIFORNIA BUSINESS COLLEGE.
Merit wins, energy overcomes, enterprise succeeds.
We spell Success with a capital S and teach our students to do the same.
Don't you want to join such a college.
Come and see us in our new and beautiful home.
All colleges are not alike: no more than are all men alike.
You will find something different here.
We will teach you the pleasure of putting forth the best that is in you.

[ELATERITE is Mineral Rubber]

ARE YOU THINKING ABOUT ROOFING?

If you are, think about ELATERITE

It is serviceable in all climates; is in general use on mining and other buildings from Alaska to Mexico. It is tempered to suit the climate in which it is to be used, so does not dry out and crack, nor run under intense sun heat. It is a perfect non-conductor. Buildings covered with it can easily be kept at an even temperature. It cannot rust or corrode; is not affected by Rain, Snow, Salt Water, Steam, Acids, Vapors or Gases; is superior to metal, as it never needs painting or coating. We are prepared to submit references to any extent desired. Do you want more information? Send for samples and printed matter.
